Version: As Passed by the Senate

Primary Sponsors: Reps. Callender and Troy

Local Impact Statement Procedure Required: No

Gavin Enseleit, Budget Analyst

Memorial Designation			
Designation	Roadway	County	Entity Responsible for Installation
Specialist Jacob A. Ashton Memorial Bridge	Interstate Route 90	Lake	ODOT

The table above summarizes details about the bridge designated by the bill, including the location and the entity responsible for installing the signs. The cost of producing and installing signs is approximately \$1,400. Signs usually need to be replaced every 12 to 15 years.

The Ohio Department of Transportation (ODOT) will produce and install the signs for the bridge designated by the bill.

“Juvenile Diabetes Research Foundation” license plate change

The bill updates the name of the “Juvenile Diabetes Research Foundation” license plate to the “Breakthrough T1D” license plate to reflect the organization’s name change and authorizes the Registrar of Motor Vehicles to pay the contributions it receives or has received for the license plate to Breakthrough T1D. The change will allow Breakthrough T1D to receive and use contributions for the license plate due to the organization’s name change in June 2024.

The bill also specifies that the contributions are to be used to further the organization’s mission of accelerating life-changing breakthroughs to cure, prevent, and treat Type 1 Diabetes and its complications, rather than divided amongst the chapters of the Juvenile Diabetes Research Foundation based on the location of the registration.
