Bill Analysis

Amanda George

S.B. 53

132nd General Assembly
(As Introduced)

Sen. Skindell

BILL SUMMARY

- Effectively bans the taking or removal of oil or natural gas from and under the bed of Lake Erie.
-

CONTENT AND OPERATION

The bill prohibits the Director of Natural Resources or any other state authority from issuing any permit or making any lease to take or remove oil or natural gas from and under the bed of Lake Erie.¹ In doing so, the bill creates an exception to current law that authorizes the Director of Natural Resources, with the approval of the Director of Environmental Protection, the Attorney General, and the Governor, and subject to certain requirements, to issue permits and make leases to parties applying for permission to take and remove sand, gravel, stone, and other minerals or substances from and under the bed of Lake Erie, either on a rent or royalty basis, as the Director of Natural Resources determines to be best for the state.²
