Summary of Land Conveyances

The bill provides for the conveyance of state-owned land under 24 transactions to various parties. Twenty-one of the transactions are outright sales and three are easements. For 17 of the outright sales, the bill specifies that the purchaser must pay all closing costs. In three of the four remaining transactions, these costs are to be paid according to the purchase agreement. In one instance, the bill divides these costs between the buyer and seller.

The table below identifies the section in the bill containing the proposed transaction, the state agency that uses or superintends the property currently, the grantee, a brief property description, the county where the property is located, the financial or other consideration related to the transaction, and, where applicable, the state fund that is to receive the proceeds of the various conveyances.
