Primary Sponsors: Reps. Hall and Swearingen

Effective date: September 27, 2022; appropriations effective June 28, 2022

Megan Cummiskey, ORD Assistant Director

UPDATED VERSION*

SUMMARY

Appropriations

- Appropriates the following amounts, all in FY 2022:
 - An additional \$422 million to the Office of Budget and Management (OBM) to disburse to certain local governments in accordance with the federal American Rescue Plan Act and reappropriates unused funds at the end of FY 2022 for FY 2023;
 - \$500 million to the Department of Development, for the new Appalachian Community Grant Program;
 - \$20 million to the Secretary of State, to provide financial assistance for the second 2022 primary election;
 - An additional \$750,000 to the Department of Natural Resources for weed harvesting operations at Indian Lake.
- Reappropriates the unexpended, unencumbered balance of these appropriations at the end of FY 2022 to FY 2023.
- Makes conforming changes to prior legislation in the 134th General Assembly appropriating funds to the Secretary of State.

Appalachian Community Grant Program

- Establishes the Appalachian Community Grant Program, to be administered by the Department of Development, in consultation with local development districts.

* This version updates the effective date.

- Establishes two categories of grants to be made available within the 32-county Appalachian region of Ohio – Appalachian Planning Grants and Appalachian Development Grants – and prescribes eligibility and application guidelines for each.

Election workers excluded from PERS

- Specifies that a person employed as an election worker in a calendar year when more than one primary election and one general election are held is not a PERS member if the person is paid \$1,000 for that service.

Health coverage for township first responders

- Increases the hours that certain township first responders must be hired with the expectation of working to be considered full-time employees for health care coverage purposes, thus potentially limiting the number of township first responders to whom health care coverage must be provided under certain circumstances.

OBM Director warrants

- Corrects an outdated reference to specify the OBM Director, rather than the Auditor of State, draws warrants from the state treasury for payment of state employee salaries.

Land conveyances

- Authorizes the conveyance of, or easements over, state-owned real estate.

DETAILED ANALYSIS

Appropriations

The act appropriates funds to several agencies in FY 2022, as follows:

Sub. H.B. 377 appropriations		
Agency	Amount	Purpose
Development	\$500 million	To award grants under the new Appalachian Community Grant Program. See the Detailed Analysis below and LSC’s Fiscal Note for H.B. 377 , available on the General Assembly’s website, legislature.ohio.gov , for more information on disbursement of grant funds. Reappropriates any unused funds remaining at the end of FY 2022 to FY 2023. ¹
Budget and Management	\$422 million	To disburse additional funds to nonentitlement units of local government in accordance with the American Rescue Plan Act (ARPA) and subsequent guidance issued by the U.S. Department of the Treasury. ² “Nonentitlement units of local

Information about that act may be found on the General Assembly’s website: legislature.ohio.gov.</p>
Secretary of State	\$20 million	<p>To provide financial assistance to county boards of elections to conduct the second 2022 primary election.</p> <p>Requires the OBM Director, by December 31, 2022 (or as soon as possible after), to transfer the unexpended, unencumbered balance to the General Revenue Fund.⁴</p>
Natural Resources	\$750,000	To provide additional funds for weed harvesting operations at Indian Lake. ⁵

The act also makes conforming changes to [S.B. 9](#) and [S.B. 11](#), both of the 134th General Assembly, to align certain cash transfer deadlines for the OBM Director with the cash transfer deadline in this act.⁶ Both of the prior acts are available on the Ohio General Assembly’s website: legislature.ohio.gov.

Appalachian Community Grant Program

The act establishes the Appalachian Community Grant Program. Under the direction of the Department of Development, and in consultation with local development districts, the program’s goal is to invest in sustainable, transformational projects in Ohio’s 32-county

Appalachian region. All grant funds awarded under the program must comply with requirements under the federal ARPA, as well as requirements laid out in the act.⁷

Available grants

The act directs the Department to make two types of grants available to applicants operating exclusively in Ohio's Appalachian region:⁸

- Appalachian Planning Grants, to defray costs associated with research, planning, and writing a formal project development proposal; and
- Appalachian Development Grants, to fund project implementation, based on the applicant's independently-developed project proposal or a proposal developed with help from a Planning Grant.

The Department must determine the dollar amount of each type of grant. Also, the act directs the Department to develop an application process for both types of grants. Each type of grant application must address how the project relates to the components discussed immediately below.

Required project components

In addition to any other requirements the Department includes as part of the application process, each Planning Grant or Development Grant application must address how the proposed project will incorporate any of the following components:⁹

- An infrastructure component, such as downtown redevelopment;
- A workforce component, such as public-private partnerships to build workforce infrastructure; or
- A healthcare component, such as investments in school or community-based services for children's health.

Eligibility and application review

The act requires the Department to establish grant eligibility requirements to be used when it evaluates grant applications. The requirements must include:¹⁰

- Scoring criteria for both grants, developed by the Department and published prior to the grant application period; and
- A minimum threshold score for awarding funds.

⁷ Sections 3 and 5.

⁸ Section 3(A), (B), and (C).

⁹ Section 3(C).

¹⁰ Section 3(D).

The Department must prioritize awarding grants for projects that include the following characteristics:¹¹

- Has region-wide scale or impact;
- Is evidence-based;
- Includes a public-private partnership;
- Is economically sustainable;
- Will prove transformative to the region, in the Department's assessment.

Assistance from other agencies

The act permits the Department to consult with other state agencies when evaluating grant applications, to ensure the proposed projects are beneficial to the community based on the act's guidelines.¹²

Controlling Board approval of grants; administrative expenses

The act requires Controlling Board approval for all grants awarded under the program. It also prohibits grant recipients from using more than 3% of grant awards for administrative expenses.¹³

Timeline for grants

The act prohibits the approval of new grant recipients after December 31, 2024, and requires all grant funds to be spent by December 31, 2026. After that date, the program is terminated.¹⁴

Election workers excluded from PERS membership

Under continuing law, a person employed as an election worker who is paid less than \$600 during a calendar year is excluded from PERS membership. The act adds, for a calendar year in which more than one primary election and one general election are held, that an election worker who is paid \$600 plus an amount not to exceed \$400 (essentially, up to \$1,000 total) is not a PERS member.¹⁵

Health coverage for township first responders

Ohio law does not require a township to provide health care coverage to its employees. But if a township does so, it must provide uniform coverage to township officers, full-time

¹¹ Section 3(E).

¹² Section 3(F).

¹³ Section 5.

¹⁴ Section 3(G).

¹⁵ R.C. 145.012.

employees, and their dependents. A township may, but is not required to, provide health care coverage to part-time employees.¹⁶

The act increases the number of hours that certain township first responders must be hired with the expectation of working to be considered full-time employees for health care coverage.¹⁷ Thus, it potentially limits the number of township first responders to whom health care coverage must be provided if the township otherwise provides the coverage.

Under the act, a first responder is a township employee whose primary duties include those of any of the following occupations:

- A firefighter of a lawfully constituted fire department;
- A first responder, emergency medical technician (EMT)-basic, EMT-intermediate, or EMT-paramedic of an ambulance service organization or emergency medical service organization as described in Ohio’s law for licensing first responders and EMTs.¹⁸

Townships that are not applicable large employers under federal law

Specifically, under the act, a township that is not considered an “applicable large employer” under the federal Patient Protection and Affordable Care Act¹⁹ (ACA) but that provides health care coverage is required to provide it to first responders only if they are hired with the expectation that they will work more than 38 hours weekly. The act does this by increasing from 1,500 to 1,976 (i.e., to precisely 38 hours weekly from approximately 29 hours) the maximum hours a first responder employed by such a township is hired with the expectation of working annually to be considered a part-time employee.

Otherwise, under continuing Ohio law, a township employee who is not a first responder is considered part time for health care coverage purposes if hired with the expectation that the employee will work not more than 1,500 hours in any year.²⁰

Applicable large employer

The act’s changes regarding health care coverage do not apply to all townships; they apply only to a township that is not considered an “applicable large employer” under the ACA. Under the ACA, an employer that is considered an applicable large employer by employing an average of 50 or more full-time equivalent employees (those who work an average of 30 or

more hours weekly) during the preceding calendar year must provide health care coverage to those employees or pay a penalty. The act defines “applicable large employer” accordingly.²¹

OBM warrant

The act corrects an outdated reference to specify the OBM Director, rather than the Auditor of State, draws warrants from the state treasury for the payment of state employee salaries.²²

Land conveyances

The act authorizes 35 conveyances of state-owned land or easements relating to state-owned land. While each contains individualized elements, their general format runs along similar lines, which are described below. Following the descriptions of the general elements, a series of tables itemizes the particulars of the conveyances, organized by the agency having control over the real estate.²³

Authority to sell

For each conveyance, the act authorizes the Governor to execute a Governor’s Deed in the name of the state conveying to the grantee all of the state’s right, title, and interest in the real estate. The grantee is either a specified person or entity or a grantee determined through a process specified in the act, such as the high bidder at an auction. There also could be an alternate grantee if the initial grantee fails to complete the conveyance. A purchase agreement is generally required, which lays out terms of the transaction.

Expiration of authority

Each conveyance authority expires September 27, 2025, which is three years after the act’s effective date.

Conditions

Each conveyance includes improvements and chattels (property other than real estate or property attached to real estate) situated on the real estate, and is subject to all easements, covenants, conditions, leases, and restrictions of record including real estate taxes and assessments not yet due and payable. The real estate is to be conveyed in an “as-is, where-is, with all faults” condition.

The deed may contain restrictions, exceptions, reservations, reversionary interests, and other terms and conditions the Director of Administrative Services (DAS Director) determines to be in the best interest of the state. After the conveyance, any of these terms and conditions may be released by the state or the agency having control over the real estate without needing further legislation.

²² R.C. 124.81.

²³ Sections 16 through 50.

Consideration and where the proceeds go

Each conveyance authorization specifies either the consideration for the conveyance, such as a purchase price, or the method by which the consideration must be determined. The authorization also typically specifies what happens to the consideration, often designating a fund into which it is deposited.

Costs of the conveyance

Generally, the grantee must pay the costs associated with the purchase, closing, and conveyance, including surveys, title evidence, title insurance, transfer costs and fees, recording costs and fees, taxes, and any other fees, assessments, and costs that may be imposed. Sometimes, the agency having control over the real estate will be required to pay the cost of advertising the real estate for sale, particularly if it is sold at auction or an alternate grantee ends up being used.

Preparation of the deed

Upon completion of the sale, the DAS Director, with assistance of the Attorney General, must prepare a deed to the real estate and follow a standard procedure: the deed must state the consideration and be executed by the Governor in the name of the state, countersigned by the Secretary of State, sealed with the Great Seal of the State, presented in DAS for recording, and delivered to the grantee. The grantee must present the deed for recording in the local county recorder's office.
