Detailed Fiscal Analysis

The bill enacts a new Banking Law governing banks, savings and loan associations, and savings banks under the same statute. It provides a single "bank" charter under which all three types of financial institutions may operate and eliminates the separate law regulating savings and loan associations and savings banks. The Banking Law will continue to be under the supervision of the Division of Financial Institutions within the Department of Commerce. The bill is to take effect July 1, 2017.

The bill consolidates the cost of oversight for the new Banking Law under the existing Banks Fund (Fund 5440), repealing the Revised Code section establishing the Savings Institution Fund (Fund 5450) that has been used to pay for overseeing savings and loan associations and savings banks. Fund 5450 receives annual assessments and other fees on savings and loan associations and savings banks based upon total assets. Beginning July 1, 2017, these assessments and other fees will be deposited into Fund 5440. In FY 2016, approximately \$2.4 million was deposited into Fund 5450. As of November 2016, the fund balance is approximately \$2.5 million.

The bill makes many changes that do not have any significant fiscal impact on the state or local governments. Overall, the changes will result in only minimal new administrative costs for the Department of Commerce or can be implemented using existing resources.
