Reps. Huffman, T. Johnson

BILL SUMMARY

- Designates January 31 as "Omphalocele Awareness Day."

CONTENT AND OPERATION

Omphalocele Awareness Day

The bill designates January 31 as "Omphalocele Awareness Day" to raise public awareness of this birth defect and encourage medical research.¹ Omphalocele is a rare abdominal wall defect in which the intestines, liver, and other abdominal organs protrude from the abdomen.² The Centers for Disease Control and Prevention estimates that each year about 775 babies in the United States are born with an omphalocele. The causes of omphalocele among most infants are unknown.³

¹ R.C. 5.2510.
