Judicial compensation-related costs

Base salary

The annual salary of a common pleas court judge is statutorily set at \$147,600 for calendar year (CY) 2019 and annually thereafter, and consists of a local and state share determined as follows:

- The *local share* of \$14,000 per judge is formulated at \$0.18 per capita with a cap at \$14,000. Based on 2010 census data, the population of Franklin County is 1,163,414 which results in an amount for the local share ($1,163,414 \times \$0.18$) of \$209,415 which is well above the statutory \$14,000 cap.
- The *state share* of \$133,600 per judge is equal to the annual salary minus the local share (\$147,600 minus \$14,000).

Starting with CY 2019, the addition of one domestic relations judge will cost Franklin County and the Supreme Court of Ohio \$14,000 and \$133,600, respectively, to cover their annual shares of the \$147,600 base salary. Those annual amounts will double to \$28,000 and \$267,200, respectively, with the addition of a second domestic relations judge in CY 2021.

State and local elected officials are exempt from membership in the Public Employees Retirement System (PERS), unless they choose to become members. As most elected officials do accept membership in PERS, this analysis includes PERS payments.
