S.B. 110

132nd General Assembly
(As Introduced)

Sens. Tavares, Thomas, Yuko, Skindell, Brown

BILL SUMMARY

- Generally requires a health care professional, when providing care or treatment in the presence of a patient or patient's representative, to wear an identification card or equivalent that includes the professional's name, photograph, license held, license expiration date, and employer.
 - Excludes from the identification requirement professionals who practice where care or treatment is not provided in the patient's presence.
 - Excludes from the identification requirement those situations in which wearing identification would pose a safety or health risk to the professional or patient or is not clinically-appropriate.
 - Authorizes state licensing boards to impose disciplinary sanctions for failure to comply with the identification requirement.
-

CONTENT AND OPERATION

Health care professional identification

The bill generally requires a health care professional, when providing care or treatment in the presence of a patient or patient's representative, to wear an identification card or equivalent that includes all of the following:¹

--The professional's first and last names;

¹ R.C. 4743.09(B)(1).

- A recent photograph of the professional;
- A description of the type of license or authority held by the professional;
- The expiration date of the professional's license or authority; and
- The name of the health care facility or provider that employs the professional, unless the professional is self-employed.

The identification card or equivalent must be of sufficient size and be worn in such a manner that patients and other individuals are capable of seeing it and the information it contains.²

Exceptions

The bill specifies that a health care professional is not required to wear an identification card or equivalent under any of the following circumstances:³

- The professional practices at a location where care or treatment is not provided in the presence of a patient;
- Wearing the identification card or equivalent presents a health or safety risk to the professional or patient; or
- Wearing the identification card or equivalent is not appropriate for the clinical setting.

Disciplinary action against health care professionals

The bill authorizes each state health professional licensing board that regulates the health care professional's respective profession to take disciplinary action against the professional for failure to comply with the identification requirement.⁴
